**Current codes effective 10-19-23**

The following are the current, effective construction codes for the State of Louisiana as of 10-19-23.

To access the codes, click on the Register link, choose the publication month, and open the document. Proceed to the pages listed below to find the official adopted codes and amendments:

Louisiana Register link: https://www.doa.la.gov/doa/osr/louisiana-register/

2021 codes and amendments Effective January 1, 2023 –October 2022 publication pages 2577-2607

and

2021 energy codes effective July 1, 2023-June publication pages 1129-1141

and

2021 IRC/IBC-codes freeboard amendments effective August 1, 2023- pages 1141-1142

and

Emergency rules-clink on this link: https://www.doa.la.gov/doa/osr/emergency-rules/

Choose Effective date 7/30/2023 for energy code emergency rule listing the added amendments that became effective June 30, 2023.

and

Choose Effective date 10/19/23 for new amendments (multiple codes) which became effective October 19, 2023

**All of the above references, added together, make up the current adopted codes and amendments. We are currently working on a correction document to correct all of the incorrect section references. Once that document is approved by the Register we will work toward creating a complete accurate document to be placed on the LSUCCC website.**
